VIP Day Platinum: \$997 x 7 payments

Testimonials

Dr. Millie Ortiz, Psychologist, California

"Taking a leap of faith to start my own private practice was the scariest and the best career decision I've made thus far! I am well into my third year on my own and business continues to thrive. Working with Doctor TK as my mentor, made the process much easier and well worthwhile. Doctor TK's guidance and step by step process gave me the confidence I needed to make my career goals a reality! Doctor TK's passion for seeing others thrive in their career goals shined through in her dedication to helping me build my own. She offered great insight, knowledge, and professionalism in her mentorship."

Dr. Kandice Timmons, Psychologist, California

"Doctor TK was a tremendous asset in forming my private practice. The business and development aspect of private practice is not often highlighted in graduate school and she provides a clear understanding and structure to start your own practice. Her coaching & consultation services provided assistance through many stages of practice development, from learning the necessary steps for applying to insurance panels, to understanding electronic charting systems and billing, while emphasizing the important aspects of running a business and marketing yourself. Doctor TK's consultation covered a lot of information, delivered in a concise manner that was easy to absorb."

Amber Boyd, LMFT, California & Texas

"As a result of the Dope AF Therapist Program, I received support with a mindset shift and how I perceived my own capabilities in starting my own online private practice. It was a reminder that I have within me the tools and abilities to get it done. Big WINS that I experienced included leaving my full-time job, moved to a different state and increasing my caseload for my online private practice. It's still the beginning but I am excited about the possibilities. The lessons that were the biggest impact on my business were the mindset shift lessons. I know that I have the ability to be successful and I plan to be. All of the things that I have manifested for myself is coming to fruition and limit the amount of fear that I allow into my space."
